Letter from Walla Walla.

WALLA WALLA, W. T., May 26, 1865.

EDITOR OREGONIAN:

In our last epistle we alluded to the condition of the wagon road from the Coeur d'Alene Mission to the first crossing of the Bitter Root river, a distance of some fifty or sixty miles, and mentioned that the only obstruction which exists, was the fallen timber as the road crosses the narrow valleys of the Coeur d'Alene and St. Regis Borgia. Since mailing said letter, we have read an opportune article on the Bitter Root valley and its resources, published in the "Lewiston *Radiator*" of the 20th inst., in which this same impediment is cited by the editor of that paper. He says that the road can be made passable for teams with a little private outlay. This is a matter in which the people of Walla Walla cannot but feel some interest, and, indeed Portland, which is now the great mart of trade for all points on the Columbia and its tributaries, must be more or less concerned.

The necessities of the poor and needy, are at all times fit subjects for the grave consideration of all humane and civilized communities. We are glad to say that the City Council has recently given the matter full attention, so that the destitute who may arrive here from the various mining sections, from across the plains &c., and who may be found to be worthy recipients of the public bounty, will be hereafter properly cared for. At the last meeting of the Board, Dr. J. W. Hunter, of this city, was appointed medical officer for the poor. Heretofore, it has been rather a loose custom for any physician, even a notorious "quack" to "attend to" the poor of the city, and the bills that have been ordered to be audited, have been exorbitant. We are gratified to know that a healthy change is to be inaugurated on this score.

Among the everlasting evils with which this Pacific coast of ours has been long tortured, a band of self-constituted and bold-faced medical Charlatans are not among the least thereof; they seem to follow up every mining town and mining camp in the upper country. It is high time that mighty exponent of the public sentiment (the press,) was speaking out on this special subject; the masses of the people are ignorant, and need to be concerted to feel and think aright on this, as well as on every topic so nearly touching their best interests. A unanimous voice of popular indignation should be hurled against those fiends in human shape who thus speculate with human life and bring disgrace on the ... character. The deeds of infamy practised on the ... and unwary in this enlightened city, by such as are not trained physicians, and the money so made by these dealers in the happiness and lives of their fellow-beings, ... in every way, entitled to the serious consideration of those who, by law, are the conservators of the public weal. A useful science must be defended against these empirics who, under its mantle, impose upon public credulity.

May 30th, 1865.—With the return of each successive spring since the settlement of this valley in 1859, garrulous and soft-brained wiseacres have predicted the early ... and ... gration of our city; in the cant parlance of the day, those nincompoops ... that she was "most gone up the flume;" but time, which "sets all things even," has served to prove how false were these prophesies of theirs, and that "the wish was father to the thought." True, Walla Walla may not attain to a commercial importance on a footing with San Francisco and other great marts of trade and social appurtenances, yet it is no risk to say that she will always continue to be a thriving and prosperous inland and inter-communicating city. It should be ... that this valley is, par excellence, an agricultural and pastoral one; unlike points bordering the Columbia, it does not depend for its maintenance and growth solely upon being a point of depot for forwarding goods, &c., to the mines; the great origin of wealth is found in the resources of the soil; besides the extensive grazing ... which ... the valley proper, will afford life and ... to thousands of herds of cattle and sheep; the day must very soon come, too, when we shall behold the divers streams and rivers ... which rush and meander through this beautiful valley away on to the mad Columbia—all built up with woolen and other factories.

The recent destruction of Idaho City by fire has given a stimulous to the market for all kinds of merchandise on Main street. These goods are intended for the Boise Basin.

We notice that Dusenbery Brothers, merchants, are having erected a brick building, which, when completed, will be the finest store in Walla Walla. It is to be twenty-six feet eight inches front by eighty feet deep; height of walls twenty feet—iron front.

The City Council have agreed to have built for the use of the Washington Fire Company of this city, their successors, and for the benefit of the city, an engine house, for the accommodation and benefit of the company—to be held by them and their successors, in trust for the citizens of Walla Walla, so long as they shall continue to maintain their organization as a fire company; and the company shall hold themselves, their engine and all other property of the company under their control, in readiness at all times to protect the property of the inhabitants of the city of Walla Walla and the suburbs thereof. To carry out said agreement, the City Clerk advertises for proposals for the erection of the building to be used as an engine house, &c.

An ordinance which cannot fail to concern all who may be contemplating to start business here, went into operation on the third of this month. The main features of this act relates to the classification of the stores; those whose annual sales exceed the sum of fifty thousand dollars, to be rated as the first class license, over twenty-five thousand, as the second class, under said sum, as belonging to the third class. The following is a table of licenses as now established: To keep a retail liquor business, per quarter, $100; mercantile license, first class, per quarter, $20; second class, $15, third class, $10; auctioneers, per quarter, $40; livery stable, $10; each billiard table, $10, job wagons, $12; blacksmithshop, $6; barbershop, $6, hotels, $15, restaurants, $10, bowling alleys, $20; Chinese laundry, $5; each show or exhibition, per night, $7; each house used for exhibition purposes, per quarter, $50.

Yours, &c., AJAX.

TUESDAY MORNING JUNE 6 1865

Pro-Slavery men, Ruffians

One of the New York rebel papers after putting in an impudent claim of respectability for those who still entertain pro slavery sentiments, complains that all who are determined to eradicate the curse of human servitude regard those as ruffians who still uphold it. This charge is precisely the truth. After such exhibitions of frenzied malignity as we have seen in the devotees of slavery during the last ten years, we should be altogether incapable of learning a single lesson of wisdom, had we not by this time been brought to comprehend that the ardent supporters of this infernal system are devils rather than men. Of fresh proofs we have no further need. We hope the country may be spared forever from the infliction of a single additional lesson. From the atrocities in Kansas to the murder of President Lincoln the period has been an unbroken continuation of aggregated horrors. Years ago it could not possibly have been known that even the most degraded of earth could ever descend to such infinite depths of villainy. Humanity revolts at the spectacle which has been presented. In modern times mankind has known nothing of a similar character. The hideous enormities of the defenders of slavery surpass in extreme wickedness all the nefarious crimes committed by the old Persian kings.

The chief defenders of the crime of human slavery are more than ordinary ruffians; they are the enemies of their race. And if better men could not form any conception of the utter depravity of their characters, the reason for it is found in the fact that none but the irreclaimably abandoned, could, without utter stupefaction, contemplate for a moment wickednesses so frightful as slave owners and their apologists perpetrate without a twinge of conscience or the least awakening of horror. If good men erred in their judgment of slaveocrats, they erred on the side of humanity in that they ever considered these ignominious propagators of immorality and sin, possessed of any of the attributes which dignify and ennoble mankind.

These pro-slavery wretches whose conduct has ever been such as would shame the vilest, have no right to complain that those who have suffered by their villainy, now put a proper estimate upon their characters. The obloquy they rest under is no return for the wrongs they have done their fellow men. Apologists for that iniquity which has made Davis and his compeers in crime what they are are, to be shunned as pests to society and foes to mankind.

Reduction of Military Expenses.—The recent orders of the War Department, dismissing all extra employees and curtailing military expenses, has effected a reduction of over $500,000 per day in the outlay of money. In every branch of the public service the retrenchment has been [illegible]. The cost of the transportation of public stores which military operations rendered necessary, was, in itself, enormous. Hundreds of steamers were chartered by the Government at a cost of $100 to $1,000 per day. They are now, of course, dismissed. Very large sums were continually expended in building and repairing railroads through the South for the purpose of affording conveyance for troops and munitions of war. The running expenses of a railroad in private hands is usually fifty per cent of its gross receipts. Some idea may thus be derived of the vastness of the expenditures that have been made by the Government for railroad purposes alone.

Commissary supplies of all kinds will hereafter be diminished to such an extent that their cost will be but a tithe of what it has been. The expenses of the ordnance department will nearly cease. The manufacture of arms is now at an end, and there exists an abundance of all sorts of war material to last for years to come. In every branch of the military and naval service, the curtailment of expenses will be very great. The national debt, even now, is not accumulating, and the daily expenditures will soon be far less than the daily receipts of the government.

The Lisbon Affair.—It will be remembered that the Portugese authorities some time ago, fired upon the United States ship *Niagara* in the harbor of Lisbon, because it was insisted that that vessel was attempting to violate the neutrality laws by proceeding out of port within twenty four hours after the rebel ram *Stonewall* had sailed from the same place. It was shown to the Portugese Government that such was not the purpose of the *Niagara*, and that she was merely shifting her anchorage, without any intention of going to sea. The Portugese Government made all possible reparation for the hasty act of its officer by dismissing him from his command, and by ordering the batteries which had fired on our vessel to salute the United States flag. We suppose the matter is now forever ended.

Fruit Prospects at Walla Walla.—We are informed by letter from Walla Walla, that there is a fair prospect for an excellent crop of the finer fruits, as peaches and grapes in that valley. It is stated that there will be nearly a sufficiency of peaches there for home consumption this year and that by next year, it is expected to have some for exportation.

Mr. Phillip Ritz who gives us this information sends us a package of sweet potato plants. With care, sweet potatoes may be made to grow handsomely here. Mr Ritz's fine nursery, near Walla Walla, is in a prosperous condition, and its situation there, will do much to aid fruit growing in the upper country.

The New Mines.—The excitement throughout the upper country in relation to the new mines of Coeur d Alene is not at all abating. The diggings are no great distance from the Old Mission. Boats run from here to the Palouse in three days. From that point the distance by land travel to the Mission is about 150 miles by the Mullan road. This road may now be traveled by pack trains and can soon be made passable for teams. From the confirmatory reports which reach us we are inclined to put faith in the richness of the new mines. More precise information than any yet received may be expected in a short time.

The Overland Line.—The line east of Salt Lake seem to be not yet in working order. We received a short report last night under old dates but how it succeeded in getting across is not known, as we are not aware whether the break in the wire has been repaired. From the oldness of the dates and from our failure to get anything further we are induced to think that the short report we print this morning was carried by express over the long *break* in the line. We are getting quite impatient for news but are confident we shall not have to wait a great while longer.

No less than fourteen steamers are advertised for Idaho and the gold mines in the St. Louis papers.

By Overland Telegraph.

California News.

San Francisco, June 4.—One of the most atrocious murders ever perpetrated in San Francisco, was committed just before twelve o'clock last night on Pacific street, (south side,) between Mongomery and Kearney. Antonio Mach, a doge, or southern Austrian, stopped by the side of a wagon standing by the sidewalk in front of the grocery store of Edward Walter & Co. Walter was standing in the door with his brother in law, Z Spitz, who had arrived recently from Germany, one of them laughed. Mach asked why he was insulted, and some chaffing took place, when Mach entered the store with a sailor's sheath knife and stabbed both of the men in the back, the knife ranging downwards into the right breast in each case. Walter died in a few minutes. Spritz is living yet, and, although terribly wounded and very low, may recover. Mach went into a saloon, washed the blood off his person and knife with scrupulous care and coming out, was arrested by the police and identified as the murderer by Spritz. He is a sailor, and had recently shipped on the ship *Argenois* but his physical condition would not permit him to work, as he is ruptured beyond cure.

Private David Anderson, Co. H, 3d artillery, who was under confinement in the guard house at Camp Reynolds, Angel Island, for misconduct, cut his throat with a sharp stick in the most horrible manner, perforating the wind pipe, and inflicting a wound which is likely to prove fatal.

James Patrick was arrested at Long Valley, Mendocino county, on the 27th May by troops from Fort Wright, for rejoicing over Lincoln's assassination and wishing he had the skins of a few black republicans to tan for mocassins.

Geronimo Lobis dropped dead near the Jewish Cemetery on the Ocean House road last night.

Two hundred men who went on board the *Brothers*, are domiciled in a building on Sacramento street near the bay, hoping yet to get off to Mexico in some manner.

Arrived—ship *Lookout* 126 days from New York, with general merchandise to Sherwood Bulkley & Co., Bremen bark *Neptune* 105 days from Batavia, with 4,901 bags of rice, each of 133 pounds and four tons of rattans to Fuerstein & Co.

San Francisco, June 5.—David McKay, Second Mate on the ship *Lookout*, has been arrested on complaint of Capt Nugent of the same ship. McKay is charged with assaulting a sailor with a knife with intent to kill.

Judge Cowles this morning sentenced William Kaiser to pay a fine of $500 or three months imprisonment in the county jail.

The indictment against Henry Johnson was dismissed on motion of his counsel.

A letter from Gen Placido Vega to A. A. C. Williams of the *Brontes* expedition acknowledges that Williams has furnished satisfactory vouchers for the $4,060 advanced to him by Vega.

Frank's forgery trials have again come before the county court. The trial to day is on indictment No 3, for forging the name of N. Lacy & Co.

The second annual meeting of graduates of the various colleges of the United States will take place at Oakland to morrow afternoon. An oration will be delivered.

The charred remains of a human corpse were found yesterday, among the ruins of the late great fire. The remains are supposed to be those of a man named Hibb.

The mining share market is looking much better. An upward tendency of prices running through nearly the whole list.

Legal tenders 76 and 77c. Gold, on the 2d was 134¼ and 135. Holding firm at those figures at latest dates.

Flour—a brisk jobbing demand prevails without essential change in prices. 720 bbls Chile in bond, for export to Guyamas, has been sold on private terms. The late arrivals of Oregon are understood to have been closed out. Wheat sales of 1,700 sks domestic in two lots, on private terms. Barley weak, sales 600 sks (old) 1 [illegible] 175, the latter for choice brewing, also 200 sks new, 125 at 100 lbs. A private letter from Sacramento dated the 2d inst, says the arrivals of new, forthwith sales from wagons were 1 10 a 125. Oats sales 600 sks, 160 a 162½ per 100 lbs. Hay plenty and dull. A cargo of 200 bales good new, brought $10 per ton. Potatoes—175 sks prime 14 Bodegas at 1c per lb.

Arrived—ship *Lookout* 126 days from New York, Bark *Billy* 107 from Batavia. *War Hawk* 134 from New York.

From Owyhee.—A letter from Ruby City May 25th, informs us that business throughout the mines is very active. A few days prior to the date of our correspondent's letter a quicksilver mine was discovered about twelve miles from Ruby City, which was attracting general attention. It is said to be extensive and very rich.

Provisions at Owyhee were still high. Flour 16 cents per pound, bacon, 75, sugar 60 to 75cts.

A paper called the Owyhee *News* is soon to be issued at Ruby City.

Advances on Wool.—In our article of yesterday morning we erroneously stated the amount of money which Messrs Knapp Burrell & Co offer to advance on wool. Instead of offering ten per centum on the value of wool left in their hands, they propose to make very liberal advances on at any one-third to one-half of its value and charge the owners of the wool ten per centum on the money so advanced. This puts the matter in a more favorable light and will enable wool growers to avail themselves of the offer which is made through this new enterprise.

Salem Items.—Last Friday evening the store of Wm Holm & [illegible] at Salem, was burglariously entered, the safe blown open and a quantity of money and jewelry taken. It is not yet known who perpetrated this crime.

The dwelling of Mr Barger at Salem was also entered on Saturday night and $100 stolen. The thief or thieves are not yet discovered.

The house of [illegible], a short distance from Salem, was burned on Friday last during the absence of the family.

The Governor of Illinois has received from the widow of Senator Douglas for $25,000 a deed of the lot in Chicago where he lies buried. A magnificent monument will be erected upon it.

Salt Lake City is now plentifully provided with water for irrigation. The fruit trees are loaded with blossoms, and an abundant harvest is anticipated.

Idaho City.—We gather the following items of interest from the *Idaho World*:

Stolen Goods.—The sheriff and deputies have been very busily employed during the past week in ferreting out stolen property. A large amount has been recovered and turned over to the owners. A portion still remains at the jail in care of the sheriff. We understand a number of merchants and others who have [illegible] description will make an examination of the property on hand and endeavor to find their own. [illegible] owners. [illegible] in every [illegible] manner [illegible] rocks and [illegible] was literally sacked as well as [illegible] property in many instances being carried off which could [illegible] value to any one but the owner.

While we are on the subject we may refer to another matter which created a great deal of unnecessary talk after the fire. There appeared to be a disposition shown among some of our citizens to create a feeling between the merchants and others in town and miners. Nothing could be more absurd. There was no more reason between merchants and miners than between [illegible] and tailors [illegible]. Many felt very sore over their loss after they had saved their goods from the burning houses and probably used language in the excitement of the moment no other [illegible] created [illegible] Nearly every business man here has been a practical miner at some period of his life, and every one is indirectly [illegible] equally interested in the prosperity of that business upon which every branch of business [illegible].

Main and Wall streets are rapidly assuming the appearance of a town. Houses are going up [illegible] Main and Wall streets, and some other ports of the place are becoming inhabitable. Lumber is selling for $80 per thousand and is consumed in buildings as rapidly as it comes from the saw mills. The town is very dirty and in confusion but with the laying down of sidewalks and clearing away of material, we shall behold a new, if not as large a town as before.

Attempts to fire the town were made on four occasions during the week previous to the conflagration. The first of these was at the upper end of town, a building near Bear Run; the second attempt was made in Mania [illegible] cellar into which an instrument was inserted of the nature of a rocket, which exploding, would have scattered fire in all directions. The third was on the east [illegible] of Gans & Bro. In the alley adjoining this building a collection of inflammable matter, the roughly saturated with coal oil and turpentine, had been placed. It was discovered by the dog attached to the house before affecting any danger. The persistence evinced by these diabolical attempts display the spirit of fiends rather than of men, and confirm the impression that the fire which finally destroyed the town was the work of hate and love of plunder and not of accident.

The total list of losses by the fire as published in detail in another portion of this paper, figures up $882,300. To this may be added the amount destroyed belonging to persons whose names we have been unable to procure which will make the total loss about one million of dollars.

We hear rumors of the discovery of new mines in the mountains somewhere to the eastward of this place but nothing very definite in regard to them. A party which has spent some time in prospecting in that direction returned last Sunday.

We have it from good authority that young Vaughn has made confession implicating several persons well known in the upper country and can give their names, but perhaps it would not be well to do so as justice might be defeated by the escape of the guilty parties. Two of them are known to be cattle thieves, and another but himself the stock they steal. A fourth one is engaged in the beautiful and profitable business of making and passing gold dust, and Vaughn says he received $150 worth of the stuff for $16 in good money. These men are well known and their antecedents would not be any recommendation in their favor.—*Walla Walla Statesman*.

Henry Vaughn.—From Auburn we have news of the conviction of Henry Vaughn for murder in the second degree and also a conviction for grand larceny and sentenced to ten years' imprisonment for the last offence, and we presume the full benefit of the law on the first. The dying desperado made an attempt to hang himself a short time since but his plans were interfered with in that they were! and the villain "still lives." He attempted to hang himself with a towel but did not succeed, as his attempt was frustrated by the officers who had him in charge.—*Ib. Stat.*

Decreased Exports of Specie.—The falling off in the amount of specie exported to Europe has lately been great. An Eastern paper thus speaks of the amount exported during the third week of April last.

The shipments of specie from New York last week amounted to less than eighty four thousand dollars while for the corresponding week last year the aggregate exports footed up over three millions one hundred and thirty seven thousand. The influx of gold from California and foreign countries now average nearly a million a week.

THE APPROACHING CITY ELECTION. — On the 10th instant the city of Portland will be called upon to elect a new board of Councilmen, Mayor, and other city officers. The telegraph [illegible] testifying their delight [illegible] men in the block where it is laid [illegible] In six months, I [illegible] will [illegible] of laying all the city over and in two years [illegible] will be seen in the streets of San Francisco."

[illegible] AT SANDY. — The road leading from this city [illegible] to be in fine going condition, and affords a [illegible] On Sunday last a party of three [illegible] of our hotel proprietors, a retail dealer and a [illegible] not feeling devotionally inclined, started [illegible] and carriages in that direction, for [illegible] recreation. Arriving at the ferry on Sandy [illegible] and spread their cloth upon the ground for [illegible] Their horses should be provided for also, [illegible] was no method of doing this [illegible] clover patch and [illegible] for the faithful animals a [illegible] of the delicious grass. This they took the [illegible] of doing, but not being very skillful [illegible] without implements uprooted the [illegible] of plants [illegible] their animals were to masticate [illegible] they stood neighing for the first mouthful. The [illegible] took exceptions to the style, however, and [illegible] himself to stay proceedings [illegible] place, champagne corks flew in every [illegible] by one of the five were vanquished, resulting [illegible] in plenty of fodder for the horses, and [illegible] raiders and defender of Sandy. The [illegible] recommend their friends to [illegible] prepared [illegible] locality, when they will have no trouble for [illegible] forage.

[illegible] SMASH UP. — Yesterday a fine span of sorrel [illegible] an excellent carriage, were about [illegible] in a [illegible] of the streets of the Third Ward, while [illegible] about the city by Mr. Stevens, a young man [illegible] The team, we understand, belonged to [illegible] establishment of Lipscomb & Wells, of the same [illegible] that the young man had attempted to [illegible] a street that was partly graded and found [illegible] blockaded by an embankment, and in his ef[illegible] his steps, turning about, the horses be[illegible] falling upon the [illegible] of the carriage [illegible] the [illegible] just below the right eye, severing the [illegible] of the right fore leg above the knee joint [illegible] the right hind quarter, and otherwise [illegible] which caused great suffering. The [illegible] was not so badly hurt. The carriage was [illegible] but no person was injured.

[illegible] — If there are men in this city who [illegible] down-cast appearance [illegible] to earn, or by speculation gain, a million [illegible] be ventured into business on his own ac[illegible] step into Ladd & Tilton's Bank on the [illegible] and Front streets. There he may see the [illegible] in solid rock, of what exists in the [illegible] to make him "[illegible] any other [illegible] will proceed with his business [illegible] natural way — as they come. This country [illegible] part of the great [illegible] and [illegible] with energetic, contented spirits, to bring [illegible] We are not at this time permitted [illegible] the quartz on exhibition at the Bank [illegible] a few days we shall be in possession [illegible] specimens in stating who [illegible]

[illegible] DISCOVERY. — Now that traveling is good [illegible] and business of all kinds there actively [illegible] is not so much a matter of astonishment [illegible] be frequently called upon to speak of new [illegible] About thirty five or forty miles south [illegible] an extensive field for placer mining [illegible] discovered, which is of extraordinary [illegible] great excitement was created [illegible] number of miners from various parts of the [illegible] country were flocking to the new [illegible] left Idaho on the 15th [illegible] likely all fare well, as the reports were [illegible] of the most reliable, and [illegible] the scales themselves. The new [illegible] the Yuba and [illegible] known to be in [illegible] likely to give our city [illegible] a prestige not [illegible] the Golden State itself.

[illegible] OVER. — A [illegible] apparently [illegible] was run over by a team [illegible] between Second and Third streets, yesterday [illegible] most miraculously escaped being mangled to [illegible] The [illegible] of one of the horses struck the child [illegible] and one of the forward wheels of the wagon [illegible] over a portion of its garments [illegible] the only injuries inflicted to the little one [illegible] the head, received by falling [illegible] Mothers should be more careful [illegible] and drivers should exercise a better look out [illegible] are the results of gross carelessness.

[illegible] PLEASURE SEEKERS. — A party of three young [illegible] started out in a small boat last evening [illegible] on the river, and when about mid-stream [illegible] they had embarked in a very [illegible] craft [illegible] was in a leaky condition [illegible] and a boat was sent to them from the steamer [illegible] they were fortunately kept [illegible] party was badly scared, and [illegible] the next time they [illegible] in a safer craft, and others [illegible] profit by their experience.

[illegible] — There were three vessels in port yester[illegible] W. L. Richardson, discharging [illegible] Schooner A. Crosby, discharging [illegible] Co.'s wharf, and the schooner Enterprise [illegible] foot of Jefferson street. The bark [illegible] for Oak Point to receive cargo of lumber [illegible] The Enterprise left during the afternoon [illegible] and the first named vessel leaves [illegible] to take the same kind of cargo [illegible]

FALSE ALARM. — Just as we were going to pr[illegible] an alarm of fire [illegible] the engines departed [illegible] a false alarm [illegible] the city and [illegible] night [illegible]

MEETING. — There will be a special meeting of [illegible] Council at the Chamber on Wednesday [illegible] to take action upon the [illegible] of Front [illegible] dispatches from San Francisco [illegible] the Nicholson Pavement [illegible] with it, are expected in the meantime.

SHALL WE [illegible] — Citizens [illegible] a few sugges[illegible] in regard to the approaching Fourth [illegible] meeting [illegible] should be immediately called, and steps [illegible] a celebration in the most appropriate manner.

[illegible] — The gauge at the O. S. N. Company's [illegible] shows that the water of the Willamette river [illegible] For three days it was stationary, and yes[illegible] had receded one inch. The weather is warm [illegible]

A WORD TO SMOKERS. — [illegible] not our intention [illegible] preach a sermon against the growing use [illegible] and use of the weed, for it is a luxurious com[illegible] What gentleman, we ask, old or young [illegible] this habit [illegible] himself [illegible] particularly after a hearty meal, will [illegible] We speak from experience [illegible] indulge in a good cigar ourselves. But what we wish to suggest is, try that justly popular fragrant [illegible] and efficacious Dentifrice SOZODONT, just the thing after smoking [illegible] taste and [illegible] agreeable and [illegible] teeth [illegible]

Sewing Machines

ARE NOW UNIVERSALLY ACKNOWLEDGED TO BE BY FAR

THE MOST SIMPLY CONSTRUCTED

Easily Managed,

HANDSOMELY FURNISHED

and Durable

FAMILY SEWING MACHINE,

NOW IN USE.

Possessing the Most Desirable Points of all other First-Class Machines, it Surpasses them by the Simplicity of its Construction, and the Ease and Facility with which it Performs a Greater Variety of Work than all other Machines Combined.

IT HEMS, FELLS, GATHERS, BRAIDS, QUILTS and Gathers and Sews on a Ruffle at the same time. We [illegible] the following advantages over all other Sewing Machines:

1st. It makes four different stitches, the Lock, Double Lock, and Double Knot [illegible] each stitch being alike on both sides of the fabric.

2d. It is the reversible feed motion, which enables the operator [illegible] the work [illegible] either to the right or left [illegible]

3d. Changing the length of stitch [illegible] can readily be done while the machine is in motion.

4th. [illegible] is perfect in itself, making the seam [illegible]

5th. It is almost noiseless [illegible]

6th. Its motions are all positive; there are no springs to get out of order, and its simplicity enables the most inexperienced to operate it.

7th. It will not oil the dress of the operator [illegible] table.

8th. It is the most rapid sewer in the world, making five stitches to each revolution.

9th. It is the wonder of all, because of its [illegible] stability, strength and beauty.

10th. It has the best feed of [illegible] work with equal facility [illegible] change of tension or machinery.

11th. Every Machine has one of [illegible] patent hemmers attached, the right to use which we control, enabling the operator to turn any width of hem desired.

12th. There is no other Machine which will hem large [illegible] as the Florence.

13th. It does not require [illegible] thread on the under side than it does for the upper.

14th. [illegible] in any other Machine.

15th. It will sew across the heaviest seams [illegible] of both, without change of tension or breaking of thread.

16th. It is fully protected and licensed by Elias Howe, Jr., and his Associates and our own Letters Patent.

17th. To avoid the strain on the eyes, bent posture, close application, or fatiguing care [illegible] we now furnish each Machine with "[illegible]" which [illegible] the value especially to inexperienced operators.

18th. While possessing the above and many other advantages, the FLORENCE is sold at corresponding prices with other first-class Machines.

19th. We refer to [illegible] in publishing the highly complimentary notices of the Press with which we have been favored, and place our Machine before the public, believing that an intelligent examination of its merits will fully substantiate all that we have claimed for it, and justify the assertion we now make, that it is the best Sewing Machine in the world.

20th. We Warrant every Machine to be all that we claim for it, and will give a written warranty if required.

21st. Agents wanted in all the principal cities and towns on the Pacific Coast. With a small investment of capital a profitable business can soon be established.

They never fail who die
In a great cause, the block may soak their gore
Their heads may sodden in the sun their limbs
Be strung to city gates and castle walls—

Elapse and others share as dark a doom
They but augment the deep and sweeping thoughts
Which overpower all others and conduct

Life of Lincoln by Himself —Charles Lanman, Webster's old private secretary, sends the following to the New York *Herald*

Georgetown (D C) April 7 1865

As everything connected with the history of our martyr President is of intense interest I send you a brief record which illustrates his singular modesty as a man When in 1858 I commenced my labors on the work known as the Dictionary of Congress I forwarded to every ex-member of Congress whose residence I could ascertain a circular asking each person for information as to the date and place of his birth, the character of his education, his profession or occupation and a list of any public positions he may have filled These simple facts were all I wanted, and in looking over the thousands of replies that have been sent me since it is truly remarkable to find that men of the greatest ability have invariably told a brief and literal story thereby preserving their innate modesty and writing nothing to compromise their dignity The reply I received from Lincoln was singularly brief and yet comprehensive and you may well imagine is now highly valued by me with other friendly letters by the same hand as a memento of one who possessed all the "degrees of sovereign honor" as elucidated by Lord Bacon, and who like Regulus and the two Decii, sacrificed his life for the good of his country The record in question as follows

"Born February 12, 1809, in Hardin county Kentucky.

"Education defective

"Profession, a lawyer

"Have been a Captain of Volunteers in the Black Hawk War

"Postmaster at a very small office

"Four times a member of the Illinois Legislature

"And was a member of the lower House of Congress Yours etc

A LINCOLN "

Such is the story of his life down to 1858 What a wonderful contrast does it present to his subsequent career!

Judgement on Jeff Davis by Himself —The St Louis *Republican* of May 5th says

Being proclaimed a felon may not be relished by Jeff Davis, but if we remember, he has indulged in that Executive line not a little himself The instances that occur to us just now are the outlawry of Major General Pope, Brigadier General Steinwehr, and all commissioned officers serving under these commanders, Major General Hunter, Major General Butler, and Brigadier General Phelps For certain orders issued by Pope and Steinwehr in Virginia, they and all their commissioned officers if captured, were to be held in close confinement, and for the execution of any unarmed inhabitant of the Confederacy "with or without trial, whether under the pretense of the accused being a spy, or hostage or any other pretense," Jeff Davis ordered that out of the commissioned officers aforesaid a number equal to the number of citizens executed by the United States authorities be immediately hung. In December, 1862, Davis issued a proclamation, reciting various and sundry acts of General Butler, among them the execution of B. Mumford, for tearing down the American flag at New Orleans and declaring "the said Benjamin F Butler a felon, deserving capital punishment" The proclamation went on: "I do order that he be no longer considered or treated simply as a public enemy of the Confederate States of America, but as an outlaw and common enemy of mankind, and that, in the event of his capture, the officer in command of the capturing force do cause him to be immediately executed by hanging and I do further order that no commissioned officer of the United States taken captive shall be released on parole before exchange until the said Butler shall have met with due punishment for his crimes Generals Hunter and Phelps had organized and armed negro slaves. It was ordered in their case that they be treated as outlaws, and in any event of the capture of either he was to be "held in close confinement for execution as a felon "

Widow Partington has recently paid a visit to the menagerie, and thus relates her experience, for the instruction of whom it may concern "You see my deare (that's her way of addressing the world and the rest of mankind) I was never in such a Noah's ark of a place before, and naturally I was considerbully frustrated and discomforted. There was the elephant, with his orful long prognosis, and the taper on the same plan, but couldn't hold a candle to him, and the juggler, or South American tiger, a tricky varmint, and the conder and the Anna Conder, which I s'posed to be the conder's sister, but it turned out to be a sarpint, and the eddicated mule, that sartingly had been eddicated at a school where they taught manners, and the Japenned swine—Lord sakes! how they did smell of the varnish, and the painter, that was continually brushing from one side of his cage to the other, and the six-banded peccadillo, from South America and the camomile of the African desert, and the gay sell that I wanted to buy, but the price was redikalus; and the four performing quadrupeds that Van Humbug went into the cage Oh, it was a remarkable expedition of the works of natur and well calkilated to teach the most unreflecting that we are all frightfully and wonderfully made."

The Negroes in Richmond —A correspondent in Richmond relates the following incident

But the negroes it was refreshing to hear them talk Many were taken with Lee's army, as officers' servants, who are now finding their way to their homes within our lines further south And Richmond darkies are on all sides, telling of their joy at the capture of their city "I was jus so happy when I knowed it dat I couldn't do nuffin but jus lay right down and larf, and larf," said one "I could jus roll up and larf I declar I jus felt as happy as a man's got religion in his soul" "Some folks says a man can't tote a bar'l flour," chimed in another, "but I could tote a bar'l flour dat day, or a bar'l sugar" "I seed a rebel gwine down de street dat mornin'," said a third with an evident appreciation of the privileges of a freedman, "wid a big ham, and I jus tuk dat ham from him and run'd right down de street And he hollar to me to stop, but I jus keep dat ham" "We have more liberty in one hour afer you Yankees come dan in all our lives afore," was the comment of yet another

The President's Widow —The Chicago *Tribune* says

We learn from Washington that it is the purpose of Mrs. Lincoln to make this city her future home More than a year ago the deceased President declared to one of his intimate personal friends here, that after he had laid aside the cares of his great office, and retired to private life, it was his intention to spend the remainder of his days in Chicago He had commissioned one of our citizens to look about the city, and before the close of his present term of office, to secure the refusal of a comfortable residence on some pleasant street He felt a warm attachment for the people of Chicago for what they had done for him before he became President, and for their unwavering and powerful support through the dark days of his first term If the matter had been left to the choice of the stricken widow of the fallen chief she would have directed that his ashes should repose on old Michigan's shore, near those of his great compeer and friend, Stephen A Douglas

Some of the Virginia rebels, after having been beaten in the field propose to come back and obey the laws of the land, if West Virginia is reconnected to the East and matters restored to the old *status* They might as well make a condition precedent to their submission to the national authority some such natural impossibility as the levelling of their own Alleghanies and the turning back to the sources the currents of their own rivers West Virginia is held by her loyal population and East Virginia will be held by the Federal Government until its politicians and its people see that their truest interest lies in obedience to the Constitution and the laws Let them see the reward for obedience in the submission and prosperity of Maryland —*Wash Chronicle.*

Fatal Honor On the evening of the 11th of July 1804 Alexander Hamilton lay on his bed mortally wounded by a pistol shot fired at him by Aaron Burr, in a duel on that day The attending surgeon called in the aid of Dr Henry Mott (father of Valentine Mott) and when the old gentleman looked at the wound he asked, How did this occur? The death stricken statesman with that princely hauteur for which he was remarkable answered It was done in an affair of honor sir Tut tut, says old Mott God help such honor It will cost you your life And it did

What Mr Seward Says —The Washington correspondent of the New York *Commercial* writes that Mr Seward has remarked since the tragedy "This is only history repeating itself—all great revolutions have their assassinations as well as their heroes"

England and India are now within six hours telegraphic communication

---

General Sheridan —We heard of an incident in Dallas connected with this distinguished American's life at a time when he was but a Lieutenant When about to leave San Francisco for the east to join the deadly struggle for American liberty that has since blotted the pages of our history, he was accompanied to the steamer by Captain Van Voast U S A Those old comrades as they were with clasped hands stood upon the gang plank until the last order to haul in was given As the steamer swung out into the bay Sheridan as a last farewell called out to his friend Van I will win a Captain's epaulettes or a bloody grave" How nobly has the hero redeemed his word A Major General's commission in place of a Captain's epaulettes won and with that a name in a hand that will be handed down to future generations as one of the leading stars of freedom in the late wicked rebellion Captain Van Voast related this little incident to Colonel H B Thorpe, of the valley, from whom we received it —*Memphis Appeal*

The White Trapper The Boy a Lover . While the detectives were on the track of Booth they came to the Rappahannock, and at a ferry questioned the ferryman but he could not remember a man like Booth even Booth's photograph did not aid his memory His negro assistant instantly on seeing the likeness said, "Yes massa know dat man, I sot him across the river toder day and three oder men in two horse wagon" Pursuing this trail another old rod Virginian was overhauled after the Garret House which was secluded from the road had been passed, who turned the party back, telling them the men were at Garrett's

LILLIE'S LOCK OPENED

New York September 2 1864

F Tillman Esq 218 Battery street
Between Commercial and Clay San Francisco

Dear Sir, We notice an advertisement in your daily papers respecting the security of the Lillie locks We are aware that you will understand the lock, and, we trust, will not allow yourself to be annoyed by such representations We have just sent for one of our men at the factory and he in our presence opened one of Lillie's best safe locks after it had been locked and the combination turned on

Messrs Tilton & McFarland,
Safe Manufacturers Boston Mass

Gentlemen From representations made by Mr Lillie I was induced to purchase of him one of his

So Called "Fire Proof Safes"

On the 18th of February last a fire occurred in our block which destroyed a number of buildings, and our own with the rest We trusted our books, papers and all in the safe After the fire the so called "safe" was taken from the ruins and on opening it we found that

Everything had been Destroyed.

We send you the safe, with what is left of the papers and you will see that not one of them is legible or strong enough to sustain its own weight Having the curiosity to know how our neighbors fared in this fire, we noticed Messrs Knott & Hardy just opening their safe (TILTON & McFARLAND'S make) and its contents were found to be

In Perfect Condition

This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs McK & H's cellar—such as lard, pork etc, their safe was subjected to a much greater heat than that of our own, we being in the cloth ing business and had but little in the cellar There was another of Lillie's safes here subjected to the same fire faring, however no better than ours

Very respectfully
Your obedient servants

TO THE UNFORTUNATE,

NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary,

617 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

DR GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year, during which time he has visited all the principal hospitals of Europe, among them those of Dublin, London and Paris The following celebrated hospitals of London are among those visited by the Doctor: Guy's, High street, Borough St Bartholomew's, Smithfield; St. Mary's, Cambridge Place, Pad Lock, Harrow road; St. Luke's, Old street University, Gower street, Westminster, Broad Sanctuary, Charing Cross, Agar street, Strand; London Whitechapel road, Royal Free, Gray's Inn road; King's College Portugal street

DOCTOR GIBBON has also visited Doctors Acton of London, Parker of Birmingham, England; and Ricord of Paris, who are considered the best physicians and surgeons in the world, and whose authority is acknowledged to be the highest in the treatment of Sexual Diseases

DOCTOR GIBBON has obtained from them their new mode of treatment which cannot be surpassed

DOCTOR GIBBON has spared neither time nor money in seeking out new remedies, and has returned with new facilities for the alleviation of human suffering

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath coughs, consumption, night sweats, monomania and frequently insanity If relief be not obtained, should apply immediately, either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn certificates dupe the unwary Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco are tricksters and became too lazy to work at their trades Some are linsmiths, shoemakers news paper carriers Intelligence office keepers etc Look over the San Francisco Directory and you will find their Medical Institute that they call it will find their former occupations in it Look at the Directory for 1862 and 1863. The only way of an impostor is to make in july It will cost you nothing and may save you many regrets For as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are Doctor Gibbon does not deceive people by exhibiting bogus titles certificates pretended patients letters etc Doctor Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure
